**BUSINESS ANALYSIS (PMI-PBA) COURSE, LAGOS  
NIGERIA**

Where passion meets delivery...

## **COURSE SUMMARY**

The business world is constantly evolving and so are the strategies. A thorough analysis of a business creates a foundation for the success of that business. This Business Analysis and Management training is tailored towards imparting global Business Management and Analysis best practices on participants. The training brings to the classroom real life scenarios, Contemporary templates, tools and techniques that help participants to easily apply such in any field of endeavor while they also learn how to use MS Visio for business analysis and management.

The course will guide participants through basic Business Management processes, best practices and principles. The course is a simple and straight forward roadmap for Professionals who wants to hone their skills and also earn certification in business analysis and management. The training uses a combination of PMI practical guide and the BABOK. Participants will be able to write the PBA or CBAP certification exams after the course.
